25X1 1. [] Comment. Except for the troop train from the Buchenwald concentration camp, all other trains probably were loaded with components of the 20th Gds Mech Div which [] also included the 65th Gds Mech Regt from Weimar; the units moved to the Ohrdruf troop training grounds. The troop train from Buchenwald indicates that elements of the 19th Gds Engr Bn of the Eighth Gds Army from the Buchenwald concentration camp also moved to the Ohrdruf troop training grounds rather than to the training area on the Elbe River north of Lissa as was previously expected.

25X1 2. [] Comment. Probably elements of a light AAA regiment of the 13th AAA Div which moved by road to the summer camp at Ohrdruf.

25X1 3. [] Comment. The troop trains at Erfurt also carried contingents of the 20th Gds Mech Div which [] included an element of the 68th Gds Hv Tank SP Regt from Jena. The troops also went to the Ohrdruf troop training grounds.

25X1 4. [] Comment. [] the unloaded tank unit belonged to the 57th Gds Mtz Rifle Div which [] was carried to the Kindel troop training grounds. []
